

WinTV-HVR-950

hybrid TV stick

Analog cable TV & ATSC HD digital TV for PCs and notebooks!

- Watch and record cable TV or over-the-air ATSC HD TV.
- Schedule your TV recordings, using the high quality MPEG-2 video recording format!
- Pocket size, easy to install on USB2. The perfect traveling companion for desktop or laptops.
- Includes portable antenna*.

WinTV-HVR-950 brings over-the-air high definition ATSC digital TV plus analog cable TV to your PC or laptop!

Watch and record TV, in a window or full screen. Use the WinTV-Scheduler to record your favorite analog or digital TV shows using high quality MPEG-2. Play your TV recordings back to your screen any time.

WinTV-HVR-950 is easy to install. Just plug it into your PC or laptops' USB 2.0 port and connect a TV antenna (analog cable TV is also supported). In a few minutes you'll be watching analog or high definition ATSC digital TV on your PC or laptop screen. WinTV-HVR-950 includes a portable digital antenna, so you can receive digital TV while you travel!*

ATSC digital TV brings you sharper pictures and enriches your PC's multimedia experience with near CD quality sound. WinTV-HVR-950's ATSC digital TV receiver adds great features to your TV viewing: high definition TV reception, automatic identification of channel names plus records high-definition digital TV programs to your PC's hard disk in an MPEG-2 format without losing quality.

ATSC digital TV is a over-the-air digital TV for North America. ATSC digital TV typically requires an antenna for reception, and is currently broadcast in 200 cities, with over 1500 TV stations. Note: ATSC digital TV is NOT digital cable TV or digital satellite TV. The WinTV-HVR-950 cannot receive digital cable TV or digital satellite TV.

You're prepared for the future.

If you live in an area where you can't currently receive ATSC digital TV, the WinTV-HVR-950 can still be used to watch and record analog TV from cable TV or a TV antenna. But you are prepared for the future! When ATSC digital TV comes to your area, WinTV-HVR-950 will also receive the new digital TV channels.

WinTV-HVR-950 hybrid TV stick features

- Watch analog cable TV or the new ATSC high definition digital TV on your PC or laptop screen! ATSC HD is the over-the-air high definition TV standard for North America.
- No need to open your PC: just plug into your USB 2.0 port. Note: will not work with USB 1.1
- Includes Hauppauge's WinTV2000 application to watch and record TV in a window or full screen. If you live in an area where you can receive both digital and analog TV over the air, you can switch between analog and digital channels automatically.
- Includes WinTV-Scheduler, so you can record your favorite TV programs on a daily, weekly or once only schedule.

ATSC digital high definition TV features

- ATSC over-the-air digital TV receiver built-in. Supports all ATSC formats, up to the high definition 1080i format! Decoding of ATSC TV is done by your PC or laptop processor.
- Record ATSC digital TV to your PC's hard disk using high quality MPEG-2. TV recordings will typically consume 5 Gb of disk space per hour for ATSC high definition.

Analog TV features

- Analog cable TV receiver built-in. Will also work with a TV antenna.
- Record analog TV shows to your PC's hard disk using our SoftPVR™ MPEG-2 encoder. Analog TV recordings will typically consume 1.5 Gb of disk space per hour.

System requirements

- Minimum processor recommended:
 - 2.2 GHz P4 or 1.8 GHz Centrino or equivalent (min.).
 - 2.8 GHz processor for analog TV recording with MPEG-2 (min.).
- Microsoft® Windows® XP, XP Pro or Windows XP Media Center Edition, with Service Pack 2.
- Graphics with 64MB of memory (minimum).
- USB 2.0 port (will not work with USB 1.1).
- CD-ROM drive (for Software installation).
