PCTV QuatroStick nano (520e)

4-in-1 USB Tuner in compact and innovative slider design

Product Overview
PCTV QuatroStick nano lets you enjoy four broadcast formats in one elegant package. It provides perfect digital cable (DVB-C) reception and high quality digital terrestrial TV and radio (DVB-T). It can also be used to watch analogue TV, listen to FM radio and capture video from e.g. a camcorder or set-top box (cable included).

PCTV QuatroStick nano features live TV streaming from a Windows PC to an iPhone or iPad. Home TV recordings can be scheduled and played back on these mobile devices as well as on any PC or MAC via its web browser.

Target Market
Digital cable viewers: You no longer have to buy a set-top box to enjoy unencrypted digital cable TV (DVB-C). It also opens the door to digital terrestrial and analogue TV reception and FM radio.

Digital TV enthusiasts: An excellent DVB-T tuner that offers the added bonus of being compatible with DVB-C, analogue TV and FM radio. Not only can they watch digital TV, they can also record it, stream it to other PCs and mobile devices throughout the home.

Key Features
Enjoy DVB-C, DVB-T, Analogue Cable TV and radio on your PC
• Free Digital Cable TV (DVB-C) in SD and HD
• Free Digital Terrestrial TV (DVB-T) in SD and HD
• Superior worldwide analogue TV reception (via cable and antenna)
• Stereo FM radio
• Capture analogue video from a set-top box or camcorder with the included A/V adapter cable
• Remote control

Stream TV wirelessly to iPhone and iPad
Imagine you can watch your home TV program on your iPhone in a cafe or hotel lobby. The included DistanTV software lets you stream Live-TV and TV recordings to your iPhone and iPad. You can even schedule TV recordings over the Internet with your smart phone. DistanTV works in your home network (W-LAN) as well as over the Internet (Wi-Fi hotspot and 3G).

TVCenter: turns your PC into a full digital video recorder
• Watch TV in full-screen or scalable window
• Use time shifting to pause and rewind live TV
• Record your favourite shows in space-saving format, or schedule future recordings

Technical Specifications
Minimum System Requirements
• Microsoft® Windows 7® or Windows Vista with latest Service Pack, 1 GB RAM
• Or Windows XP (32 bits) with latest Service Pack, 512 MB RAM
• PC with 1.5 GHz processor
• For DistanTV or HDTV reception: 2.6 GHz multicore processor
• Hard disk with min. 1 GB free capacity (20 GB free capacity recommended)
• Sound and graphics with support for DirectX® 9 or higher
• USB 2.0 port
• CD/DVD drive for software installation
• Internet connection for DistanTV, software updates and activations

TV Recording Formats
• MPEG-1 (off-line trans-coding)
• MPEG-2 transport stream
• MPEG-4 H.264 (AVC)
• MPEG-4 compatible with PSP/iPod (try&buy)

Tuner
• Interface: USB 2.0 (Hi-Speed)
• Supported TV standards:
  - DVB-C, DVB-T, PAL, SECAM, NTSC
• Stereo / dual channel sound
• Stereo FM radio
• Antenna input: MCX connector

Important notes on DVB-T reception:
Please ask your dealer whether DVB-T is available in your region. DVB-T reception is depending on location and might be impaired by thick or steel-enforced walls, and high neighbouring buildings. In such environments, an outdoor / roof-top DVB-T antenna is required. Mobile reception of DVB-T, e.g. in a car or train, is in general not possible.
