

# WinTV-HVR-2250 MC-Kit

## Dual Tuner PCI Express TV for ATSC/NTSC/QAM, with dual hardware encoders

**Dual tuner TV PCIe board for Windows Media Center. Watch one ATSC, NTSC or QAM TV channel while recording another.**

**With dual built-in high performance hardware MPEG-2 encoders**

### Package Includes

- WinTV-HVR-2250 PCI Express x1 card with dual tuners for over-the-air digital ATSC plus NTSC and clear QAM digital cable TV. With built-in dual hardware MPEG-2 encoders, dbx-TV stereo decoders, and S-Video/composite video and audio inputs.
- Windows Media Center Certified infra-red remote control.
- One IR receive/blaster cable with learn sensor. Second IR blaster cable.
- A/V cable set to add a second audio/video input
- Half height bracket for installation in low profile PCs
- Installation CD-ROM
- Quick Installation Guide

### Features

- Two complete ATSC/NTSC/QAM tuners on board. Watch one TV channel of any type while recording another!
- Watch, pause and record analog and ATSC/QAM digital TV in Windows Media Center. Record ATSC and QAM high definition digital TV to your PC's disk in the original video quality!
- Dual built-in high quality hardware MPEG-2 encoders for recording analog cable TV. Record to disk using from 1-2 Gigabytes of disk space per hour. While recording, the WinTV-HVR-2250's hardware MPEG-2 encoders do all the work, so your PC continues to run at full speed.
- Use Windows Media Center's TV scheduler to record your favorite TV shows. There's no monthly charge for the program guide and scheduler!
- WinTV-HVR-2250 MC-Kit includes the Windows Media Center remote control transmitter and receiver. Manage all Media Center functions with the hand held remote control. With an IR transmitter to control the channels on a cable or satellite set top box.

### System Requirements

- Minimum processor recommended: 2.2 GHz Intel® P4, Core Duo, Dual Core or equivalent
- Microsoft® Windows® Vista Home Premium and Ultimate. Can also be used with Vista Home Basic and Windows XP with the included Hauppauge WinTV application.
- Available PCI Express x1 or x16 slot
- USB port (for remote control)
- Graphics with 64 MB of memory (minimum)
- CD-ROM drive (for software installation)

### Technical Specifications

- TV Standards supported:
  - NTSC Analog Cable TV
  - ATSC Digital Over the Air HDTV
  - Clear QAM Digital Cable TV\* (Microsoft Windows Vista TV Pack 2008 required for QAM reception)
- Plugs into:
  - PCI Express X1 or X16 slots

### With the WinTV-HVR-2250 Windows Media Center Kit, you can:

Watch one TV channel while recording another. Windows Media Center and WinTV-HVR-2250 allow you to watch one ATSC, NTSC or QAM TV channel while recording another of any type!

Use Windows Media Center's TV scheduler to record your favorite TV shows automatically.

Record analog cable TV to disk without slowing down your PC with dual built-in MPEG-2 encoders.

Pause analog and ATSC/QAM digital TV, with instant replay, skip, fast forward and rewind.

Use the included remote control to control all Windows Media Center functions, such as digital picture slide shows, DVD play, music playlists, etc.

### The WinTV-HVR-2250 Windows Media Center Kit is the best way to add TV to your Vista Home Premium or Ultimate PC.

Plug WinTV-HVR-2250 into a PCI Express slot in your PC, plug in the included Media Center remote control, connect analog cable TV, clear QAM or ATSC digital TV or a satellite or other set top box, and you'll be watching TV with Media Center's TV button in no time!

**Dual tuners for any TV format.** WinTV-HVR-2250 has two built-in tuners for all TV formats. Use the Windows Media Center scheduler and you'll never miss your favorite TV shows again!

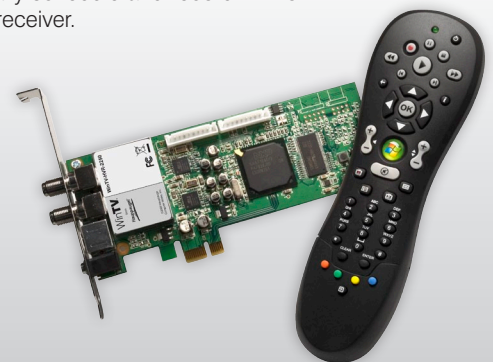

**ATSC high definition digital TV** brings you sharper TV with great sound. Watch high definition digital TV at up to 1080i on your PC screen. WinTV-HVR-2250's ATSC digital TV receiver will record high-definition digital TV programs to your PC's hard disk in the original high definition without losing quality.

### Microsoft certified Windows Media Center remote control included.

Control all of Media Center's functions with the included remote control. Play music, start a slide show, all from the comfort of your living room couch.

**And if you have a cable TV or satellite box**, the included Media Center IR transmitter can control the channel changing. So you can automatically schedule and record TV from cable TV or a satellite receiver.

New! Now for use with Windows Vista TV Pack 2008!
