Watch live TV on your notebook or desktop PC

Watch HDTV channels from over-the-air ATSC or clear QAM digital cable TV, with Dolby Digital audio and up to 1080i resolution.

Watch analog TV by connecting to cable TV.

View in full screen or in a window.

Remote control and portable antenna included.

Record your favorite TV programs

Record analog or digital TV shows to your computer's hard drive with one click.

Use WinTV-Scheduler as a personal video recorder to record your TV shows daily, weekly, or only once.

Supports the following formats: NTSC analog cable TV, clear QAM digital cable TV and ATSC HD TV

Includes a combination 125 channel cable ready TV tuner and digital HDTV tuner.

Compatible with Windows Vista, Windows XP and Windows Media Center*.

New! Now for use with Windows Vista TV Pack!

TV Standards:

NTSC is the analog cable TV standard in North America.

ATSC is the over-the-air digital HDTV standard for North America and typically requires an antenna for reception.

Clear QAM digital cable TV allows users to watch unencrypted digital TV channels from their cable TV provider without a set-top box.

Analog TV recordings typically consume 1.5GB of disk space per hour. High Definition TV recordings typically consume 5GB of disk space per hour.
