Installation CD-ROM

Quick installation guide

Note: HD PVR 2 will not record video from HDMI with HDCP copy protection. If you are recording from a cable or satellite TV box, we have included a set of Component video cables to connect to your box.

HD PVR 2: your personal high definition video recorder!

HD PVR 2 records video at up to 1080p from a satellite or cable TV set top box, a PC game system, Sony PlayStation® 3, Wii U or Microsoft Xbox® 360. HD PVR 2 can record from either HDMI (without HDCP protection) or Component Video.

Once you have made your recordings, you can share them with your friends on YouTube or you can burn them in high definition onto a disc for playback on a Blu-ray player.

Amazing HD audio and video quality

HD PVR 2 uses the newest generation H.264 video encoder and records at resolutions up to 1080P30. The H.264 format is used by Blu-ray discs and exceeds other video compression standards in quality and disk space consumption, providing a crisp image and amazing digital sound. H.264 uses 1/3 the disk space compared with the popular MPEG-2 format.

And with HD PVR 2's S/PDIF optical audio input, your audio will be as amazing as the video!

HD PVR 2 for PC gamers: your personal HD recorder for your game play

Record your best gaming moves without slowing down your PC. The video compression is done inside HD PVR 2 so you can record your PC game play in HD without slowing down your PC.

Simply plug the HDMI out from your PC gaming system into the HD PVR 2, and then connect HD PVR 2 to your TV monitor.

Make your own HD movie library from cable or satellite TV

Create a HD library of your favorite TV programs by burning up to 2 hours of HD PVR 2 video onto a standard DVD-R disc. The discs created with the included ShowBiz application can be played on Blu-ray disc players.

Record your favorite cable or satellite TV programs in HD. Includes an IR blaster to control the channel changing on your set top box

Connect HD PVR to your satellite or cable TV set top box via the HD component cables (supplied). With the TV scheduler and IR blaster, HD PVR can change the channel on the set top box and record the selected program. Hauppauge's TV Scheduler provides a easy way to schedule your TV recordings. Create a schedule of weekly or once only recordings, and HD PVR will record them automatically! Find your favorite movie, sports event or show, schedule it and let HD PVR 2 take over!

Record your best PC game play in HD. Upload to YouTube and share with your friends!

HD PVR 2 records PC game play in HD using HDMI. You can also record Xbox 360, PS3 and Wii U game play. And HD PVR 2's HD video passthrough means you can record and watch your game play at the same time, with no delay! HD PVR 2 captures videos in a format which is perfect for uploading to YouTube.

HD PVR 2 has "no delay passthrough" so you can play your video game while recording. To use the no delay passthrough, simply connect HD PVR 2 between your game console and your HD TV set. HDMI output is provided to make it easy to connect to your TV monitor.

For recording HD TV programs from a cable or satellite TV box, HD PVR 2 includes an IR blaster which can change the channels on your set top box. Use the included WinTV application to schedule recordings of your favorite TV programs and the IR blaster will change to the correct channel for the recording.
