

pctv Dual Sat Pro PCI

Two tuners make satellite TV on your PC twice as entertaining

Product Overview

PCTV Dual Sat Pro features two high-quality digital satellite tuners on one PCI board. Used in combination with the included, all-new TVCenter Pro software, it delivers a more versatile satellite TV and PVR experience. You can enjoy Picture-In-Picture (PiP) viewing on your PC. You can also watch, record and TimeShift two TV programs at the same time.

PCTV Positioning

PCTV is the premium range of TV watch/recording solutions for PC owners. PCTV Dual Sat Pro is a high-end PCTV product that combines cutting-edge dual tuner hardware technology with dedicated multi-tuner software.

The hardware and software were developed together, assuring easier setup, better performance and higher compatibility.

Target Market

Customers for PCTV Dual Sat Pro have access to free-to-air satellite broadcasts and are passionate about TV. They want maximum flexibility. They want to be able to watch one show while recording another, or watch/record two different shows at the same time. They also want to experiment with new features such as Picture-in-Picture.

Key Features:

- Enjoy two satellite TV or radio (DVB-S) programmes simultaneously on your PC
- On your PC, watch one TV show in full screen mode and the other as Picture-In-Picture—or watch two TV shows in moveable, scaleable windows
- Gain full control over two TV programmes with the unique DualTimeShifting™ feature.
- Record TV programmes directly to hard disk in the original MPEG-2 format or in the space-saving DivX™ format.
- Record directly in PlayStation™ Portable (PSP) or iPod™ Video compatible MPEG-4 format to take your favourite TV shows with you.
- AutoPowerON™ before scheduled recordings
- AutoPowerOFF™ after finished recordings
- Use the integrated Electronic Program Guide (EPG) to schedule one-time or recurring recordings
- Enjoy TV with Dolby® Digital sound* on your PC
- Get ultra-fast Teletext from two channels in parallel and select your favourite Teletext channel while watching another channel
- Use IP data services such as Internet via Sat or Video On Demand
- Remove commercials and create your own DVDs with the included Studio QuickStart video editing application (Windows XP only)
- Access thousands of Internet radio stations with customisable channel lists.**

* Requires Dolby Digital satellite broadcasts;

** Internet connection required.
