

pctv nanoStick

Big TV experience in small package.

Product Overview

PCTV nanoStick is a gem of a USB DVB-T tuner. It picks up digital TV even if the signal is weak, thanks to its ultra-sensitive reception technology. The incredibly nano-size design makes it the perfect match for today's thin laptops and compact desktops. The included easy to use TVCenter Pro software lets you watch, TimeShift and record TV. You can enjoy TV in full-screen mode or in a scaleable window while using other applications. PCTV nanoStick is even ready for new terrestrial HDTV service*. PCTV nanoStick comes with a mini remote and antenna, and is Certified for Windows Vista.

Target Market

Who's it for?

Tech chic consumers:

They like good looking technology products that deliver a distinctive, easy-to-use benefit at an attractive price point. They want the latest and the coolest. PCTV nanoStick fits the bill, thanks to its jewel-like design, ultrasensitive tuner, terrestrial HDTV* support, and user-friendly software.

TV series fans:

These TV fanatics watch lots of TV, mainly series. To make sure they never miss an episode they record them all, and watch them over and over again. PCTV nanoStick gives them an affordable way to enjoy their favourite shows – live or recorded -- even if there's not a TV set in sight.

Mobile video lovers:

These buyers own a portable video player and are on the lookout for a way to bridge the gap between their TV and their player. With PCTV NanoStick it's easy to record and transfer movies, music videos and TV series to their player for mobile enjoyment.

Key Features

- Ultra-sensitive digital terrestrial TV reception
- Watch digital TV in full-screen or scaleable-window mode.
- Pause and rewind live TV with TimeShifting.
- Record what you're watching or schedule recordings for later.
- Record to your hard drive in MPEG-1/-2 or DivX or direct to DVD.
- Trim and edit recordings with included video editing software.
- Be ready for terrestrial HDTV*, when it's available in your area.
- Compact design with built-in protective flip-cap doesn't block other USB ports.
- USB powered. Low power consumption saves notebook battery power.
- Integrated Electronic Program Guide and ultra-fast Teletext (where available).
- Mini remote and antenna included.
- Compatible with Windows Media Center (remote available separately).

- Free trial software included! DistanTV: Stream live TV from your PC to any other PC on your home network

Note: Some of the mentioned features require a free online activation and/or registration.
