pc**tv** nanoStick Solo (73e SE)

Pocket-sized DVB-T experience

Overview

PCTV nanoStick Solo (73e SE) is an entry-class USB digital terrestial TV (DVB-T) tuner with stylish design. Thanks to its ultra-sensitive receiver-technology TV reception works also fine with a poor signal.
The very compact housing with its protective slider makes it a perfect accessory to modern, small laptops, Netbooks and compact desktop PCs.
The included all-new and user-friendly TVCenter Pro 6.0 software makes it easy to watch, timeshift and record live-TV. With its newly designed user interface it integrates smoothly into Windows® Vista while watching live-TV or recordings in full-screen or in a freely scalable window as working with other software.
PCTV nanoStick Solo comes with a mini rod-antenna and is certified for Windows Vista.

Target Market

Tech Chic-Consumer:
These customers prefer products with focus on industrial design which are combining definite technical vantages with great ease of use and an attractive price. PCTV nanoStick Solo is the perfect choice for these customers thanks to its attractive and convenient design.
TV-series enthusiasts:
These customers are watching a lot of TV, mainly TV series with regularly repeating air times. To ensure they never miss an episode they record them all and watch it multiple times. PCTV nanoStick Solo together with the all-new TVCenter Pro 6.0 is the most convenient solution to watch live or recorded TV. Scheduling recordings to keep all TV series' episodes can easily be done with included TV Digital OnGuide software.

Key Features

Compact and ultra-sensitive tuner hardware
- Best DVB-T reception – even with weak signal
- Compact hardware design with integrated slider - avoids other USB ports to be blocked
- USB powered
- Includes mini rod antenna
- Compatible with Windows® Media Center (Media Center Remote available separately)

All-new TVCenter Pro 6.0 software
- Watch TV in full-screen or a freely scalable window – with a complete new user interface
- Use Timeshift to stop and rewind live TV
- Watch and record TV directly to your hard disk (in MPEG-1 or MPEG-2)
- Best system performance to run smoothly even on Netbooks
- Integrated EPG and ultra-fast teletext (where available)

Great program guide
- Use TV Digital OnGuide software and the experience of Europe's largest TV editorial staff to find your favorite TV shows and schedule recordings[3]

- TV standard: Digital terrestrial DVB-T (MPEG-2, optional MPEG-4 AVC[2] / H.264[2])
- Tuning range 174~862 MHz
- Channel bandwidth 7, 8 MHz
- Antenna input: IEC, 75 Ohm
- Interface: USB 2.0 (Hi-Speed)

TV Recording Formats
- MPEG-1
- MPEG-2

Important notes on DVB-T reception:
Please ask your dealer whether DVB-T is available in your region. DVB-T reception is depending on location and might be impaired by thick or steel-enforced walls, and high neighboring buildings. In such environments, an outdoor / roof-top DVB-T antenna is required. Mobile reception of DVB-T, e.g. in a car or train, is in general not possible.

Product Description

25-Words
Compact hardware design with integrated slider, Best DVB-T reception – even with weak signal, All-new TVCenter Pro 6.0 software.
