

# pctv nanoStick Ultimate PC & Mac

Mini Tuner –  
Mega Performance  
Digital TV for your PC or  
Mac

## Product Overview

PCTV nanoStick Ultimate is an incredibly compact, USB-powered TV tuner that's the perfect match for super-slim Windows and Mac laptops. The ultra-sensitive reception technology picks up digital terrestrial TV and radio even if the signal isn't strong. It is also ready for the new terrestrial HDTV. The easy to use software (PC and Mac) lets you watch, TimeShift and record TV. You can enjoy TV in full-screen mode or in a scaleable window while using other applications. PCTV nanoStick Ultimate comes with a mini remote control.

## Target Market

**Tech chic consumers:** They want the latest and the greatest in high tech. PCTV nanoStick offers jewel-like design, ultrasensitive tuner, terrestrial HDTV<sup>1</sup> support, and user-friendly software.

**Mac owners** who want a compact TV tuner solution. Also perfect for "mixed" Mac/PC households that want one TV tuner solution that works with a PC or a Mac.

**Sharers:** PC owners who want to share TV shows with other PCs on their home network.

## Key Features

Turn your PC or Mac into the perfect TV

- Ultra-sensitive digital terrestrial TV & radio<sup>1</sup> reception
- Watch and record digital TV in standard and high definition<sup>1</sup>
- Works with Windows Media Center

### Inputs

- TV Antenna MCX connector 75 Ohm (MCX to IEC adapter included)

### PC

#### System Requirements

- Windows XP® or Windows Vista™ (32bit) with latest Service Pack
- Intel® Pentium® 4 2,0 GHz, Pentium M 1,3 GHz or equivalent AMD® Athlon™ XP\*
- Windows XP: 256 MB RAM (512 MB recommended)
- Windows Vista: 512 MB RAM (1 GB recommended)
- Sound/graphics controllers with support for DirectX® 9 or higher
- Hard disk with min. 1 GB free space (20 GB free capacity recommended for TV recording)
- Free USB 2.0 port
- DVD-ROM drive or DVD writer
- Internet connection for software updates and activations

#### TV Recording Formats

- MPEG-1/2, DivX®\*\*
- MPEG-4 AVC / H.264 (for HDTV recordings only)

*\* HDTV reception & recording or LAN streaming with DistanTV require a dual core CPU. For best results we recommend a system based on Intel® Core™ 2 Duo E6400 or AMD Athlon™ 64 X2 5400+ or higher*

*\*\* Free online activation may be required*

### Mac

#### System Requirements

- Macintosh® computer with a PowerPC® G4, G5 or Intel Core® processor\*\*\*
- 256 MB RAM (512 MB recommended)
- Hard disk with min. 1 GB free space (20 GB free capacity recommended for TV recording)
- Free USB 2.0 port
- DVD-ROM drive or DVD writer
- Internet connection for software updates and activations

#### TV Recording Formats

- MPEG-2
- MPEG-4 AVC / H.264 (for HDTV recordings only)

*\*\*\* For HDTV reception & recording a Dual PowerPC G5 or an Intel Core Duo processor is required.*

### Important notes on DVB-T reception :

DVB-T reception depends on location and might be impaired by walls, and high neighbouring buildings. In such environments, an outdoor / roof-top DVB-T antenna is required. Mobile reception of DVB-T, e.g. in a car or train, is in general not possible. In Great Britain, in most cases indoor reception with the rod antenna provided will not be possible.

Systems reserve the right to change product specifications without notice

## Product Descriptions

### 25-Word Description

The gem-sized PCTV nanoStick Ultimate delivers crisp and clear digital TV for PCs and Macs.

### 50-Word Description

The gem-sized PCTV nanoStick Ultimate delivers high-quality digital TV and is ready for terrestrial HDTV (in MPEG-4 AVC / H.264), where available. Watch TV in full-screen or scaleable-window mode. The included software turns your PC or Mac into a full-fledged Personal Video Recorder that lets you timeshift and record TV shows. Mini remote included.

### 100-Word Description

With its latest generation chipset, the gem-sized PCTV nanoStick Ultimate delivers high-quality digital TV and is ready for terrestrial HDTV (in MPEG-4 AVC / H.264), where available. Watch TV in full-screen or scaleable-window mode. The included software turns your PC or Mac into a full-fledged Personal Video Recorder that lets you timeshift and record TV shows.
