**Dual Tuner: Watch one channel while recording another**

**Record high quality component video from your set top box**

**Includes MC Remote control and USB IR Receiver with blaster cable**

## Package Includes

- HauppaugeTV-HVR-2210 PCI-Express x1 card
- Media Center IR remote control and batteries
- USB IR transmitter and receiver
- FM Radio antenna
- HauppaugeTV Windows driver CD-ROM
- Quick Installation Guide
- Component video cable

## Features

- Dual TV tuners for Windows Media Center. Record two TV programs at the same time: two analogue TV channels, two digital TV channels or one analogue and one digital TV channel.
- Fully supports mixed digital/analogue/STB configurations in Windows 7 Media Center.
- Audio video inputs, too! Recording cable TV from up to two set top boxes. While recording, the dual built in hardware MPEG-2 encoders let your PC run at full speed.
- Component input (480 p/i or 576 p/i) via 8 pin DIN to Component Jack.

## System Requirements

- Processor requirements (min):
  - 1.5 GHz processor or faster. Core Duo, 2.8 GHz Intel Pentium 4 processor or equivalent for HDTV reception.
- Microsoft Windows 7 64-bit and 32 bit.
- A free PCI Express x1 or x16 slot (Full height and low profile bracket included)
- Graphics with 64 MB memory (256 MB memory for HD)
- Sound card or on board sound
- CD-ROM drive (for software installation)

## Watch live TV on your PC

Watch, pause and record analog and HDTV channels, at up to 1080i resolution. Receives Dolby Digital audio too.

Watch Analog TV by connecting to Cable TV.

Watch Clear QAM digital cable TV, or ATSC over-the-air digital TV.

View in full screen or in a window.

Remote control included.

## Dual TV for Windows Media Center

Windows 7 Media Center allows you to watch one free to air HD digital TV program while recording another. You can schedule up to two channels at once with Windows Media Center's built-in TV scheduler. Utilizing Windows Media Center, you can record and schedule both free-to-air digital TV and programs from your set top box.

## Create your own personal Digital Video Recorder!

Record analogue TV shows to your PC's hard disk with our dual built-in high quality MPEG-2 hardware encoders (for analogue TV). You can also record high definition digital terrestrial TV to disk in the original digital quality. Attach your cable TV set top box via the high quality component video cables (standard definition) and use Windows Media Center to schedule and record both your set-top box and free to air programs. The included IR blaster will power on/off and select channels on your set top box automatically.

## DVB-T digital TV brings you sharper pictures and better sound

DVB-T free over-the-air digital TV enriches your PC's multimedia experience sharper TV with near CD quality sound. Windows Media Center with the Hauppauge DVB-T digital TV tuner adds great features to your TV viewing: high definition TV reception, automatic identification of channel names plus records high-definition digital TV programs to your PC's hard disk in an MPEG-2 format without any loss in quality.

**Listen to analogue FM or DVB-T digital radio** (DVB-T Radio is not a DAB radio). The HauppaugeTV-HVR-2210 has both an FM radio receiver for over-the-air radio programmes, plus you can receive digital DVB-T\* radio (if available in your region)
