- CD-ROM drive (for Software installation).
- Internet-Connection (required for activation of The Tube)

Watch Freeview digital TV or analogue TV on your PC or Mac. Includes The Tube from equinux for Mac's and our WinTV application for PC's.

Get ready for the future! If you live in an area where you can't currently receive digital TV, the WinTV-HVR-900 can still be used to watch and record analogue TV from a cable TV set top box or a TV antenna. But you are prepared for the future! The WinTV-HVR-900 can also be used with Freeview DVB-T digital broadcasts.

Record Freeview digital TV programs in native digital quality or analogue TV using MPEG-2! Use the The Tube or WinTV to record your favorite analogue or digital TV shows. Digital TV programmes are recorded in their original digital quality. Play your TV recordings back to your screen at any time.

Includes the second generation of The Tube, a powerful TV application to watch and record TV on Mac. Use your Apple remote control to change channels and start TV recordings. The Tube comes with live-chat, so you can chat about TV shows on line with other programme viewers!

WinTV application allows you to watch TV on your PC screen, in a window or full screen. Watch and record TV with a single click of your mouse. Our free 7 day EPG is included for DVB-T channels.
