

HDTV for your netbook, notebook or PC

WinTV-HVR-900-HD turns your netbook, notebook or PC into a high quality digital TV receiver. You can watch digital TV broadcasts in a window or full screen. Record your digital TV shows to disk and play them back any time.

The hybrid TV tuner supports analog TV over cable, digital terrestrial TV and digital radio¹ (DVB-T²).

Use your WinTV-HVR-900-HD with Windows Media Center²! Watch and manage different TV-channels and pause live TV.

High quality digital MPEG-2-Videorecorder - Record TV shows to your computers hard drive for playback either by hitting the one click record button or using the WinTV scheduler to program your recordings for daily, weekly or once only recording schedule. So now you will never need to miss an episode of your favourite TV shows.

Enjoy TimeShift! With the WinTV-HVR-900-HD you will never miss a second of your favourite TV show. Pause and rewind live TV shows with the simple click of a button, so you don't need to miss any of the action should you need to leave your computer.

WinTV-HVR-900-HD is Windows 7 certified.
