WinTV-HVR | 2215
DUAL HYBRID TV CARD

Dual Hybrid DVB-T, DVB-T2, DVB-C and Analogue TV tuner for Windows. Record up to two High Definition or Standard Definition digital TV or analogue TV channels with MPEG-2 hardware encoders at the same time!

Includes dual analogue TV tuners plus dual DVB-T/T2/C digital tuners

Dual on-board hardware MPEG-2 encoders

Record high quality component video (480 p/i or 576 p/i) from your set top box

WinTV-HVR-2215 has these great features

Record two analogue or free to air DVB-T/T2 or DVB-C digital cable TV programs at the same time: two analogue TV channels, two digital TV channels or one analogue and one digital TV channel.

The WinTV v7 HD application is included for full screen TV or TV-in-a-window on your PC.

Free EPG for digital terrestrial TV is included*.

Supports Windows 7 & 8 Media Center, plus component video (480 p/i or 576 p/i).

Record analogue TV from cable TV or up to two set top boxes. While recording analogue TV, the dual built in hardware MPEG-2 encoders let your PC run at full speed.

Includes the Hauppauge card size remote control (*Media Center compatible).

New feature! WinTV Extend (WinTV v7.2) for live TV on your iPhone or iPad over Wi-Fi or 3G

WinTV Extend allows you to watch live TV on your Wi-Fi or 3G connected iPhone or iPads. Watch TV from home while you travel! WinTV Extend also supports Internet or Wi-Fi connected PCs and Macs. WinTV Extend works great with all WinTV-HVR-2215 TV formats.

WinTV-HVR-2215 HD: a dual tuner hybrid TV tuner for your PC!

WinTV-HVR-2215 allows you to watch one free to air HD digital TV program while recording another. Plus you can record up to two channels at once with Hauppauge's WinTV v7 application or with Windows 7 Media Center.

WinTV v7 turns your PC into a dual HD Digital Video Recorder.

Automatically record your favourite TV shows, on a daily, weekly or once only schedule. Record analogue TV programmes to your PC's hard disk with the WinTV-HVR-2215's dual built-in high quality MPEG-2 hardware encoders. You can also record DVB-T to disk in the original digital quality. And use the free DVB-T/T2 free to air digital TV Electronic Program Guide to have an overview of upcoming free-to-air DVB-T/T2 and DVB-C digital Cable TV programs! WinTV v7 also supports digital teletext from analogue & digital TV and supports PIP - picture in picture view mode! that allows you to watch two different TV programs at the same time.

DVB-T or the new high definition DVBT2 and DVB-C digital cable TV brings you sharper pictures and better sound

DVB-T/T2 free over-the-air digital TV enriches your PC's multimedia experience sharper TV with near CD quality sound. The Hauppauge DVB-T/T2 digital TV tuner adds great features to your TV viewing: high definition TV reception, automatic identification of channel names plus records high-definition digital TV programs to your PC's hard disk in an MPEG-4 format without any loss in quality.

Listen to analogue FM or DVB-T digital radio

The WinTV-HVR-2215 has both an FM radio receiver for over-the-air radio programmes, plus you can receive digital DVB-T* radio (if available in your region). Note: DVB-T Radio is not a DAB radio.

Component video input support

WinTV v7 has support for the WinTV-HVR-2215 component video input* (480 p/i or 576 p/i) via an 8 pin DIN to Component adapter (supplied). Attach your cable TV set-top box via the high quality component video cables (standard definition) and use WinTV v7's built-in scheduler to schedule and record both your set-top box and free to air programs. The included IR blaster will select TV channels on your set-top box automatically.

Note:

* The WinTV-HVR-2215 supports DVB-T radio. DVB-T radio is not DAB or DMB radio.

* EPG data is available on some DVB-T channels, and is not MHEG5

* Digital Terrestrial coverage is improving all the time as digital terrestrial television transmitters are continuously being brought on line. However it may take some time for coverage to reach particular areas of the country.
