# Colossus

## Colossus model 1414

Record your PC or Xbox/PS3 game play in HD from HDMI\* or Component Video.

Upload your best games to YouTube in HD and share with your friends!

- Colossus is an internal PCI Express board for Windows PCs. Colossus records HDMI video from PC gaming systems in HD. Play PC games and record while you play without slowing down your PC!
- Record Xbox 360 gameplay over HDMI at up to 1080i from any un-encrypted HDMI source!
- Record from a PS3 using the Component Video input.
- Audio is recorded using two channel stereo or optical audio with five channel Dolby AC3.

\*Note: the PS3 must use Component Video.

# HD PVR Gaming Edition

## HD PVR Gaming Edition model 1445

Record your Xbox®360 or PS3® game play in HD.

Upload and share your best games with YouTube!

- Includes HD Component Video gaming cable for Xbox 360 and PS3. Includes Arcsoft ShowBiz, with upload to YouTube so you can share your best game play in HD.
- With a new black case and green record light, for more stylin' recording!
- Has the same great video quality as HD PVR model 1212. Plus includes "no delay pass through" for flawless game play recording!
