Record PC, Xbox or PS3 game play in high definition on your PC

HD PVR 2 GE Plus records HD video from a gaming PC, Sony® PlayStation®3 or Microsoft® Xbox® 360 onto a Windows laptop or desktop PC. Make video recordings of your best game play in HD using a high quality H.264 video format. Upload your games to YouTube and share them with other gamers online. Or make a high definition movie of your game play to share with your friends or use it to discuss tactics with your clan members!

Amazing audio and video quality

HD PVR 2 GE Plus records using amazing H.264 compression at HD resolutions up to 1080p30 with digital audio. HD PVR 2's H.264 recording format is used by Blu-ray disks and exceeds other compression standards in video quality, providing a crisp image with amazing digital sound. And the H.264 format uses 1/3 the disc space compared with the MPEG-2 format.

Upload your best game play to YouTube and share with your friends

HD PVR 2 GE Plus comes with a one click upload to YouTube. Make HD recordings of your game play and upload your best videos to YouTube. HD PVR 2 GE Plus records videos in HD using H.264, which is perfect for YouTube.

Live stream your game play with Twitch or Ustream

Stream your game play to your Twitch or Ustream channel with our Hauppauge StreamEez application. Create your own on-line event and be watched by thousand of followers!

Record with full surround sound plus get surround sound audio pass through

Make incredible recordings with full surround sound audio. HD PVR 2 GE Plus has an optical audio input so you can connect to game consoles with optical S/PDIF connections. And we have no-delay pass through with surround sound audio too!

Built-in Record button and Personal logos

The built-in record button allows you to start and stop recordings right from the HD PVR 2 GE Plus. So you don't need to go to your PC to record a game session. Plus the Personal Logo inserter allows you to "burn" a personalized logo right into your recordings! Brand all of your recordings with your own personalized logo!

HDMI and Component Video Input plus no-delay HDMI video pass through!

HD PVR 2 comes with HDMI out to make it easier to connect to your HD TV set. Connect to your Xbox 360 with HDMI and get amazing 5 channel sound. For the PS3, connect with the supplied PS3 Component Video gaming cable and use optical audio for full surround sound recordings!

Watch recordings of your best game play on your PC monitor or HD TV set

Play your game play recordings on your computer screen using the included ArcSoft ShowBiz application. You can also transfer the recordings over your home network to your PlayStation 3, Xbox 360, or other high definition media player.

Play while you record with our no-delay HDMI video passthrough!

HD PVR 2 GE Plus comes with real-time video pass through, so you can watch your game play on your HD TV while recording your game on your PCs disk drive. Simply connect HD PVR 2 in between your game console and your HD TV set.

HD PVR 2 GE Plus has no delay video pass through so you can play games while recording. Simply connect HD PVR 2 between your game console and your HD TV set. HDMI output is provided to make it easy to connect to your TV monitor. And HD PVR 2 has a built-in record button to make it easy to start and stop recordings.
