Cordcutter TV

Just add an antenna and watch free HD TV!

Cordcutter TV is a network TV tuner for over-the-air ATSC HD digital TV and clear QAM digital cable TV*. Cordcutter TV streams live TV over your home Wi-Fi to iPhones, iPads, Android phones and tablets plus media players like the Roku.

Cordcutter TV has two built-in TV receivers, so you can watch live TV on two devices from two TV channels at the same time.

It has a built-in 'transcoder' to convert HD TV to a form which can be streamed to your phone or tablet over Wi-Fi without overloading your Wi-Fi network. Without the 'transcoder', two channels of HD TV would not be able to stream over Wi-Fi.

Cordcutter TV has a connector to an antenna or cable TV*. Choose the best TV antenna for your house: Cordcutter TV can be used with any HD TV antenna on the market today!

Cordcutter TV connects to your home router via Wi-Fi or wired Ethernet.

Cordcutter TV features:

- Dual ATSC and clear receivers in one small box. Stream two TV channels to two devices at once
- Stream live HD TV to smartphones, tablets and media playing devices like Roku. Cordcutter TV streams wirelessly over W-Fi
- Two built-in hardware transcoders are included for the best optimization of your Wi-Fi network
- Download our 'myTV' app from the Apple or Google app stores. myTV allows you to watch and pause live HD TV on your phone or tablet over your home Wi-Fi network. Easy Wi-Fi setup with our myTV iPad/iPhone or Android app
